Silicon University

Problem Statement

Manual Handling

Complaints recorded in registers or via informal methods

No Central System

Data is scattered and not stored in one place

Delayed Resolution

Lack of structured workflow leads to slow issue handling

Unclear Responsibility

Users don't know whom to approach for resolution

No Escalation

Complaints are not forwarded to higher authorities

No Tracking

Users cannot check their complaint status

Proposed Solution

Centralised Platform

All complaints managed in a single, unified online system

Structured Workflow

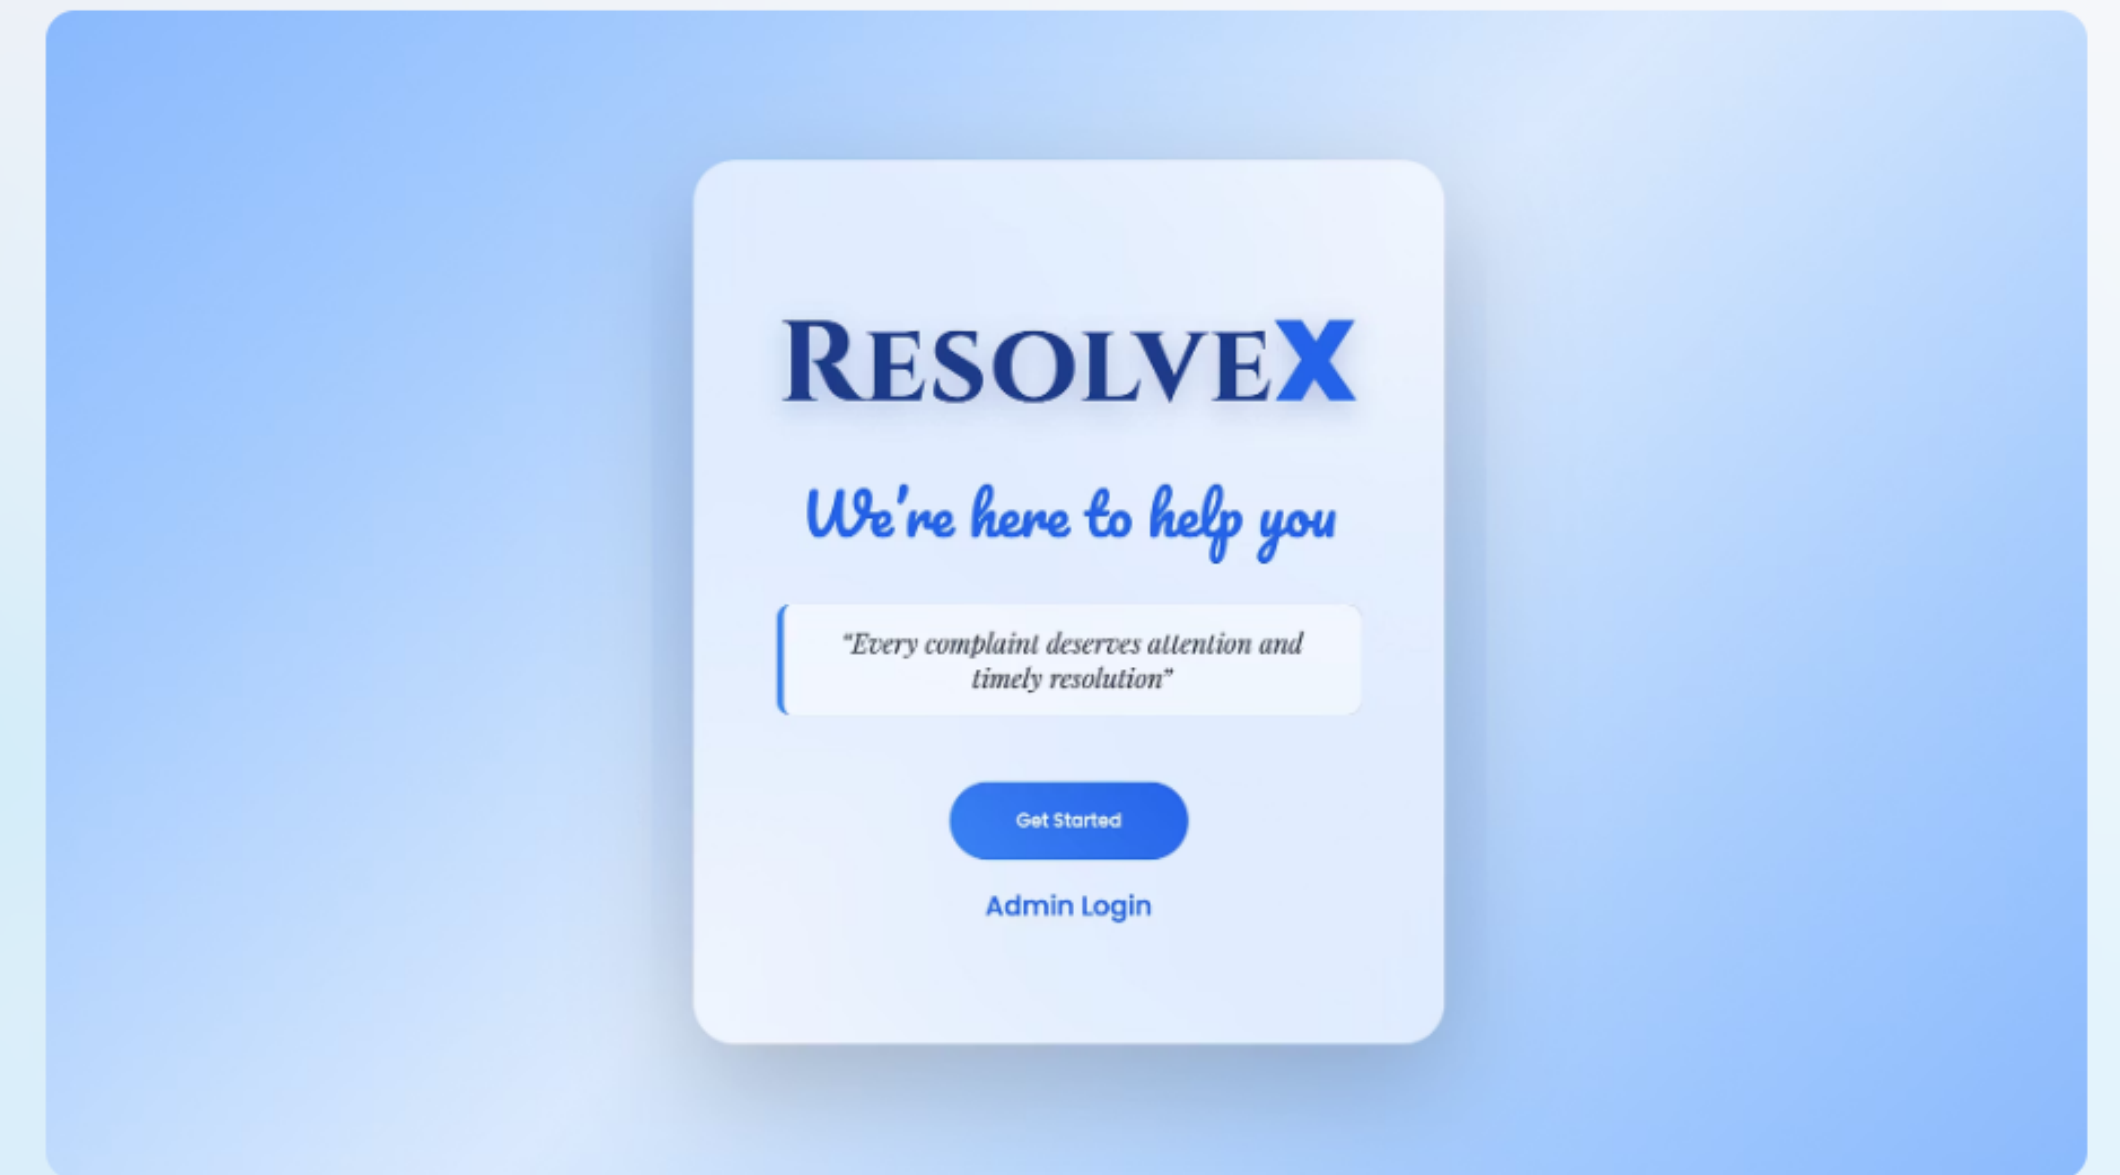

Complaints move through defined stages: Pending → Escalated → Resolved

User Access

Users can raise complaints and track status with ease

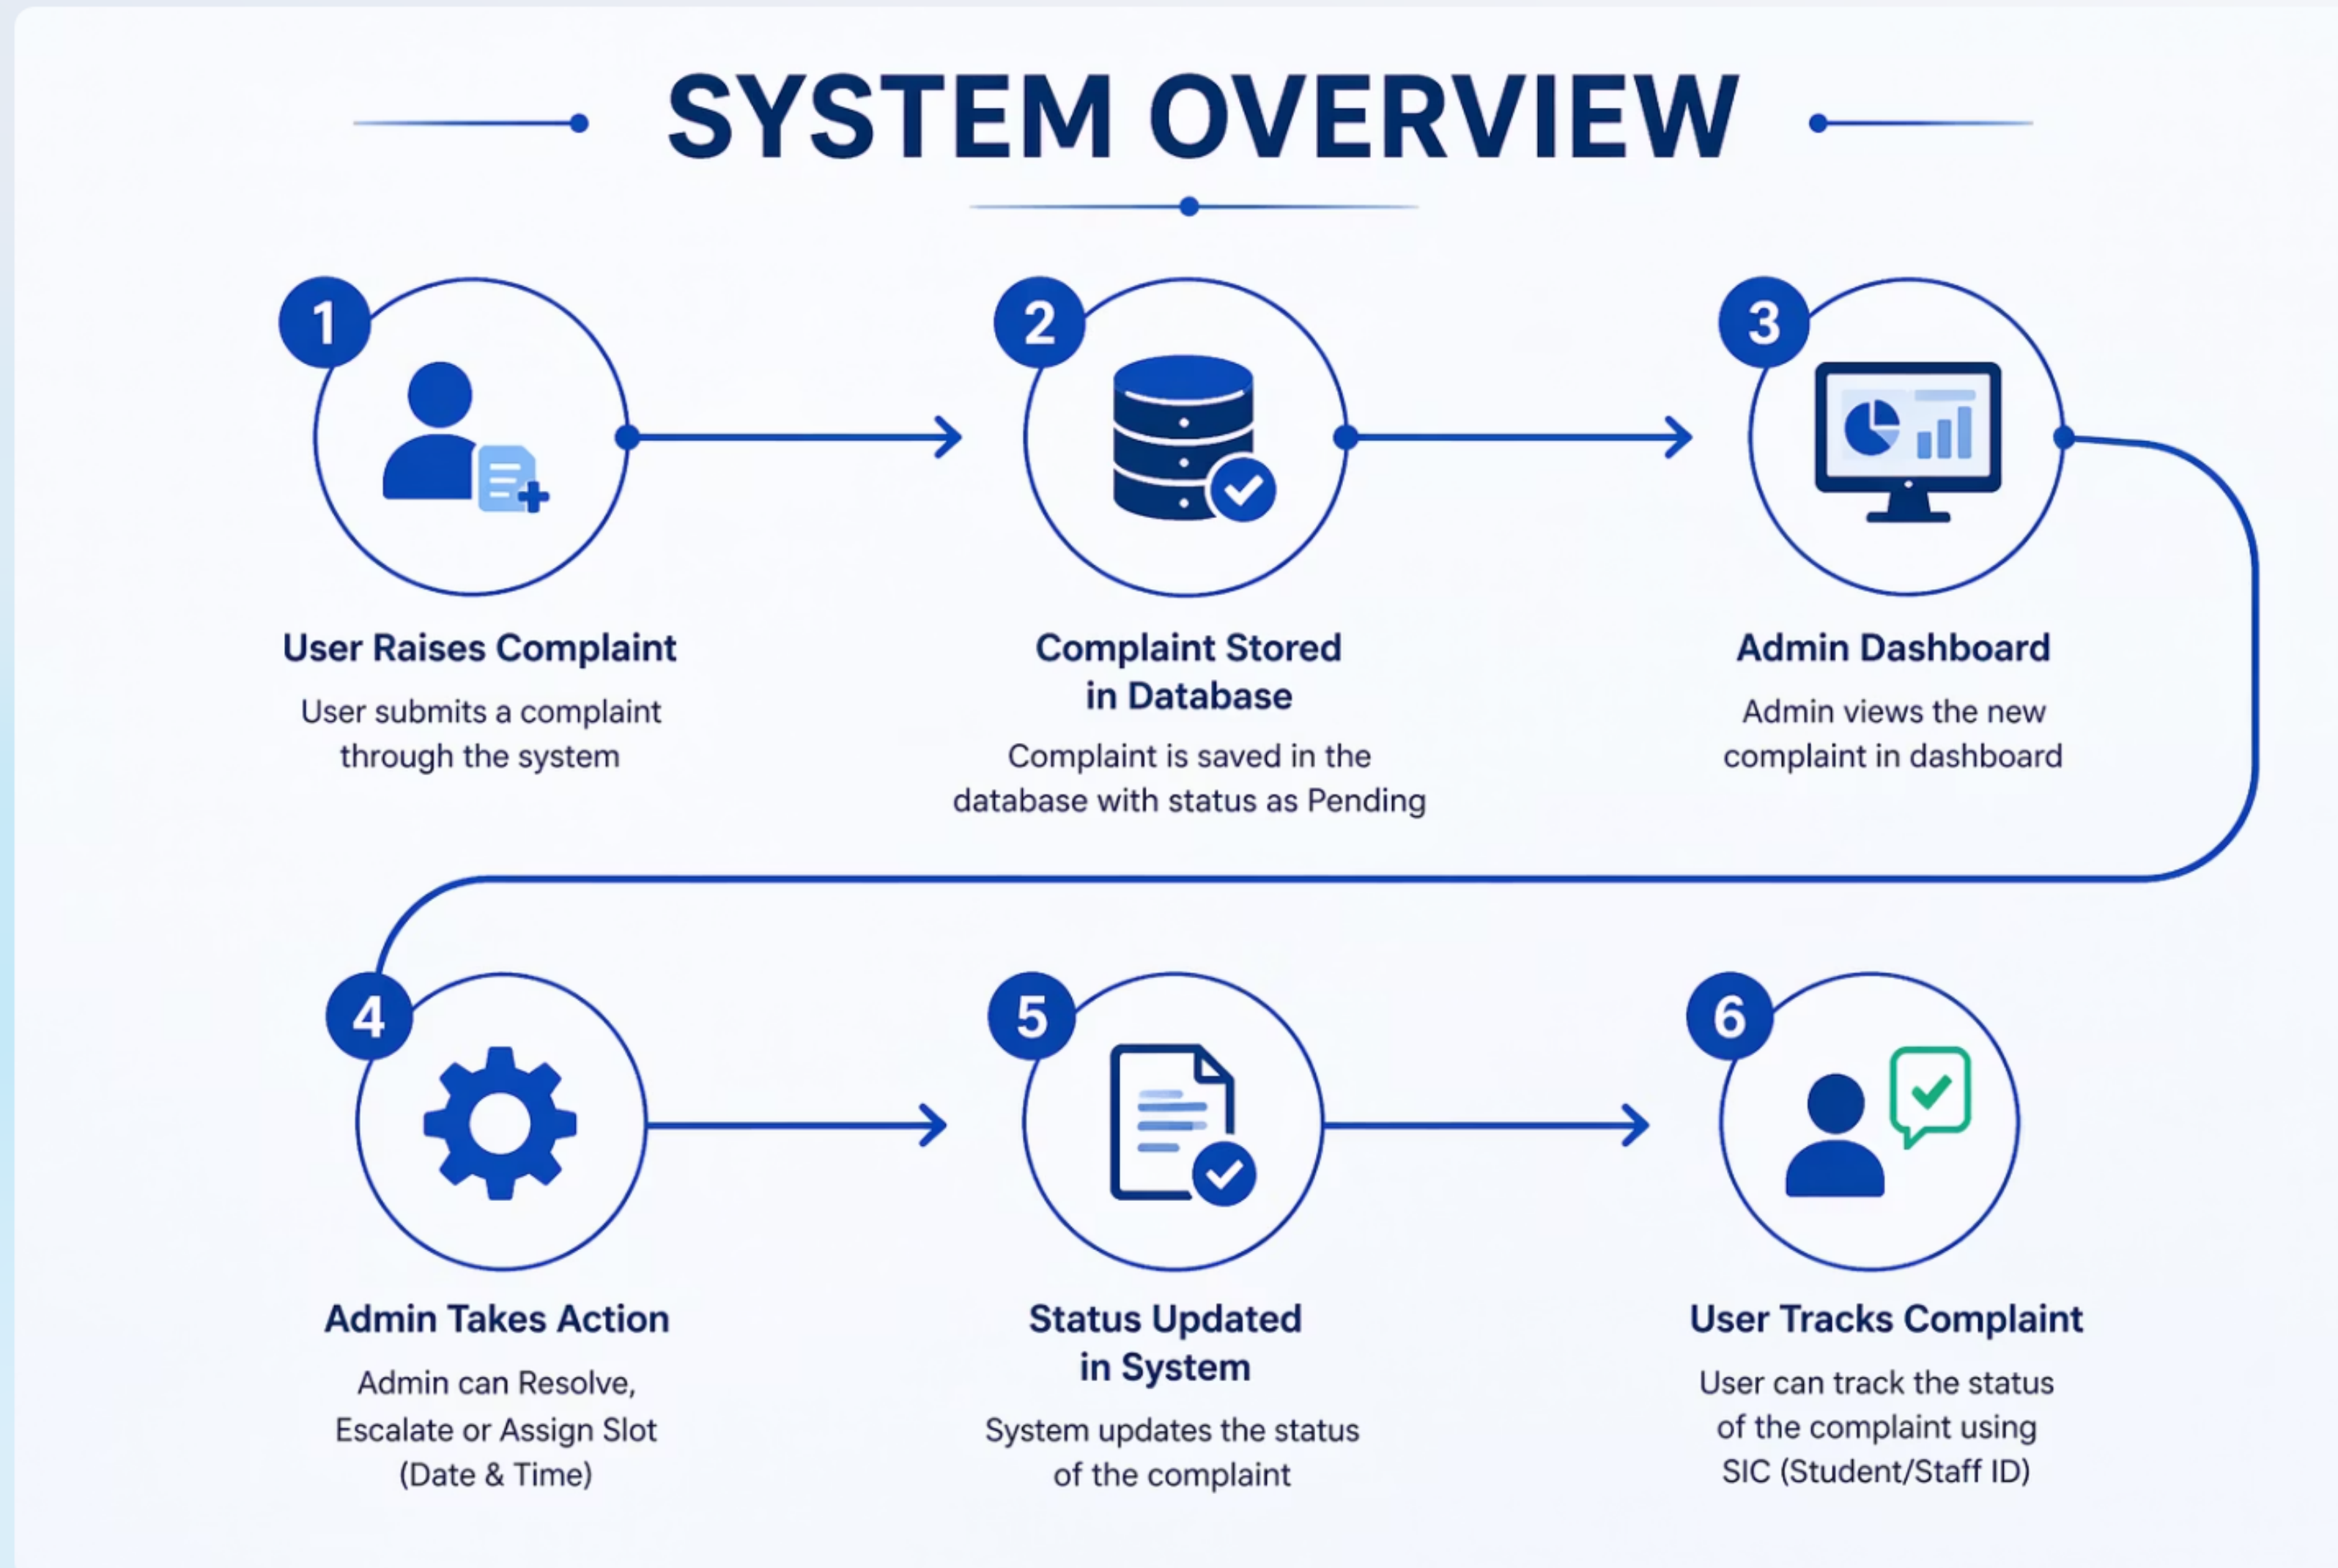

Admin Control

Admins can manage, update, and assign resolution slots

ResolveX Landing Page

System Overview

Tech Stack

Frontend

HTML, CSS

Backend

JSP (JavaServer Pages)

Database

PostgreSQL

Connectivity

JDBC

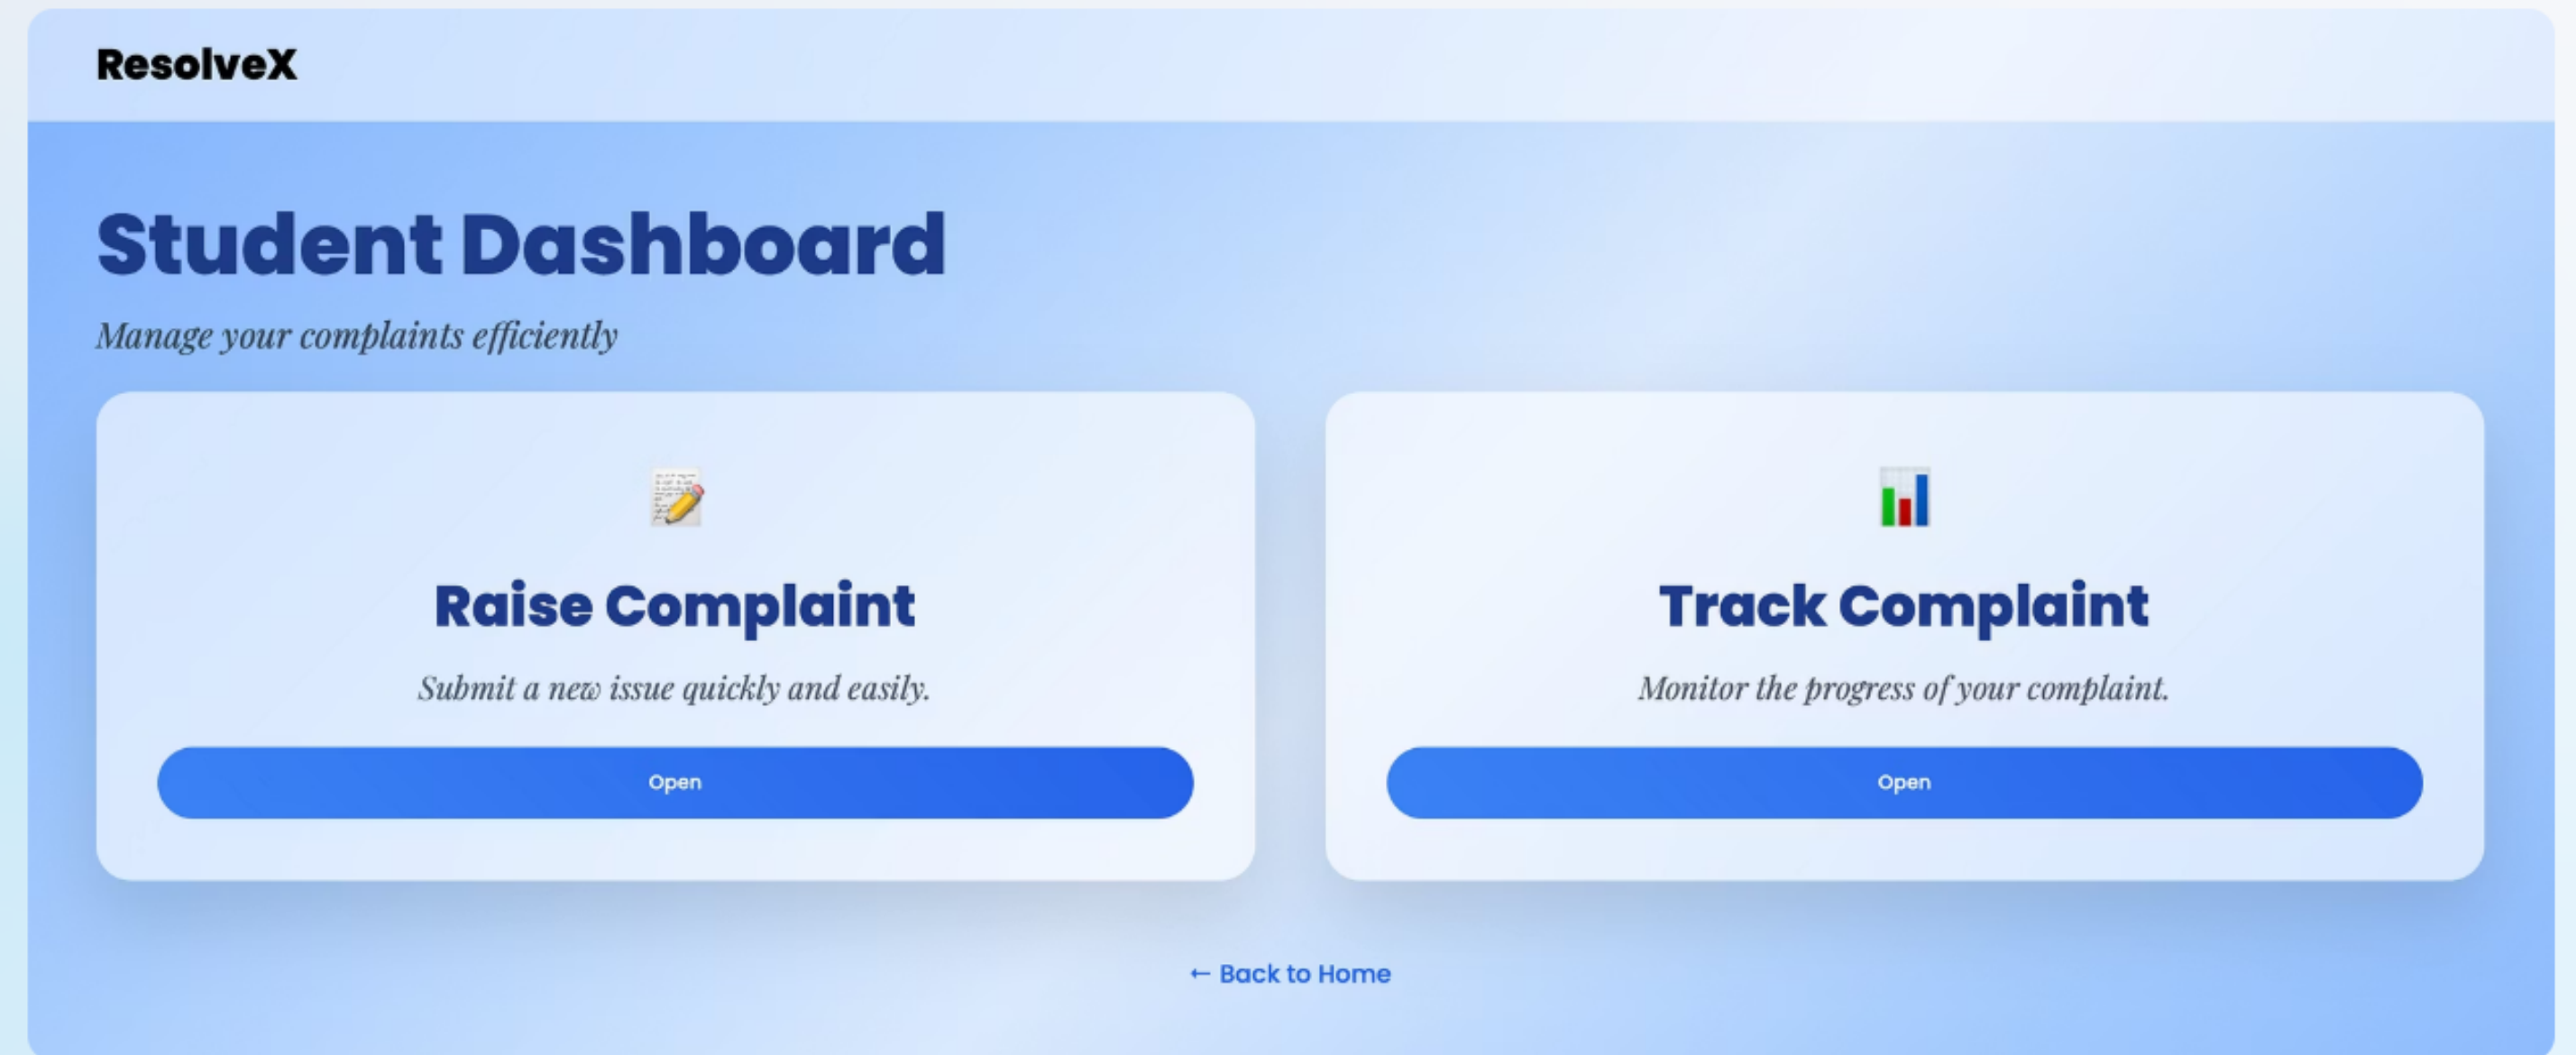

User Module

Raise Complaint

Submit a complaint with all required details through a structured form

Track Complaint

Check real-time complaint status using a unique SIC (System ID for Complaint)

Raise Complaint — User Interface

Admin Module

Secure Login

Session-based authentication for admin access

Dashboard Overview

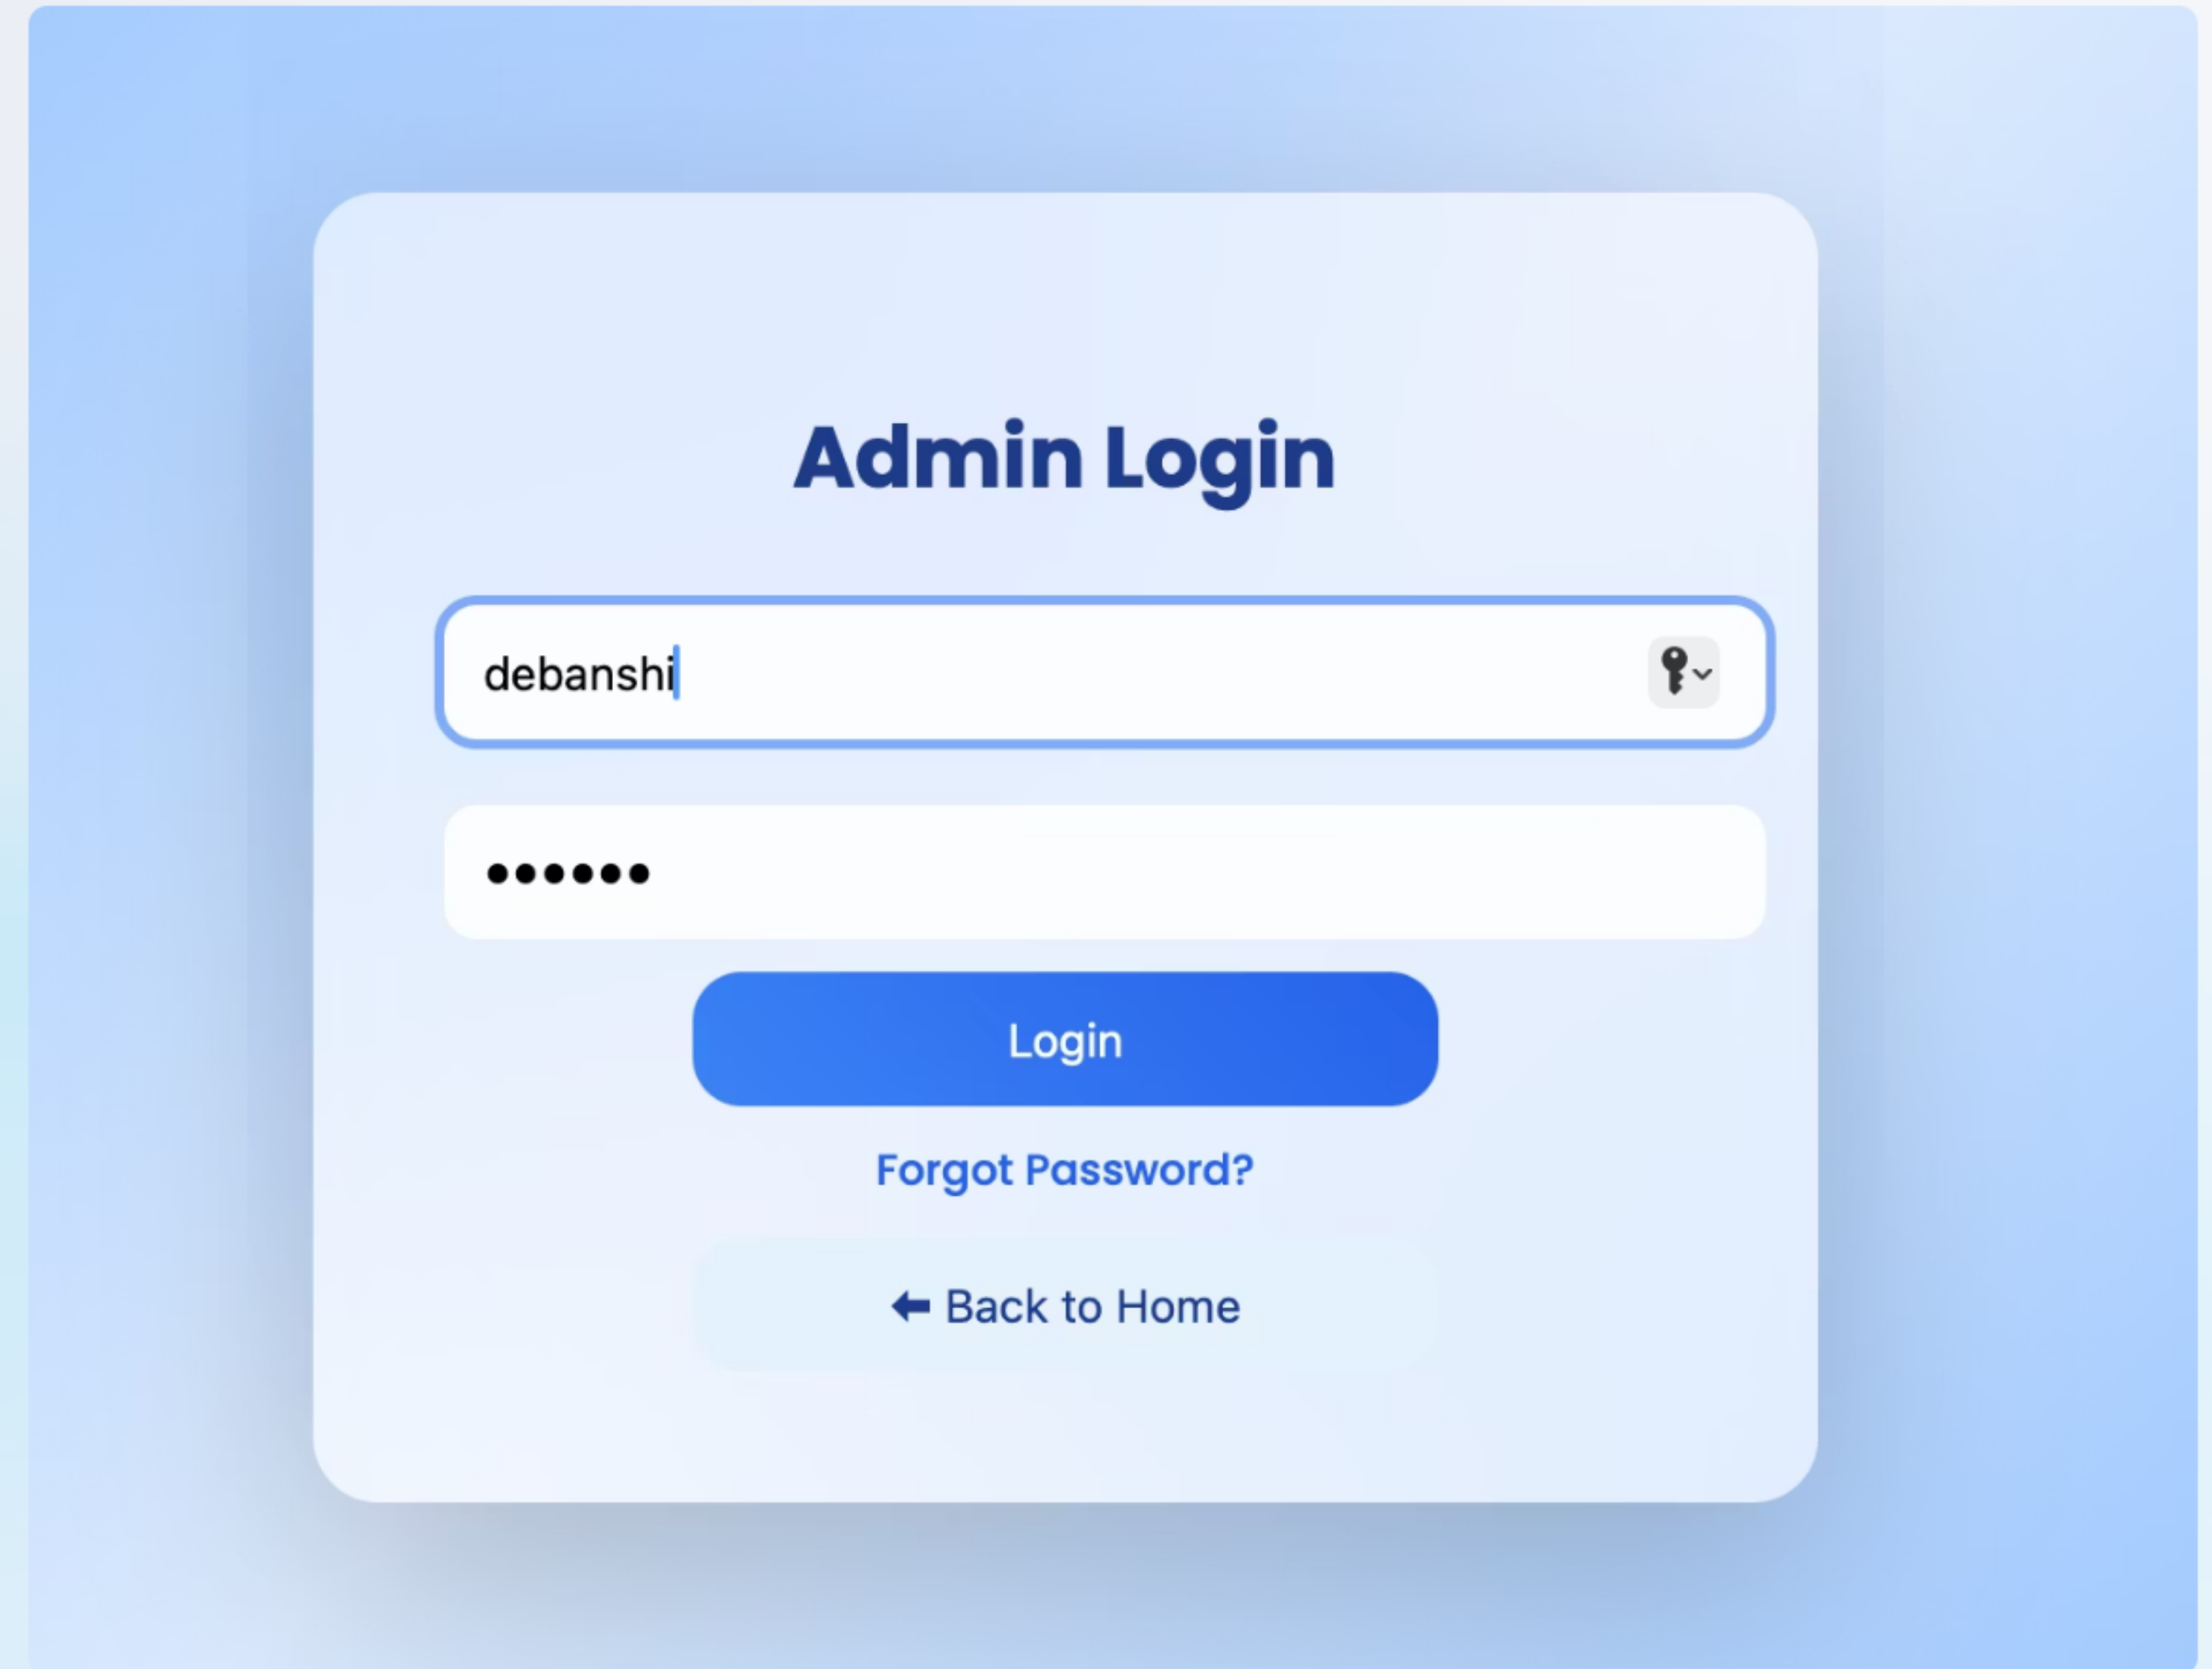

View all complaints consolidated in one place

Manage Complaints

Resolve, escalate, or assign resolution slots

Central Control

Admin acts as the primary decision authority

A mockup of an admin login interface. It features a central white card with rounded corners on a light blue background. The card has a title 'Admin Login' in bold blue text. Below the title is a username input field containing 'debanshi' and a key icon. Underneath is a password input field with six dots. A blue 'Login' button is positioned below the password field. To the right of the button is a blue link 'Forgot Password?'. At the bottom of the card is a light blue button with a left arrow and the text 'Back to Home'.

Admin Dashboard

Welcome, debanshi

Pending: 1

Resolved: 2

Escalated: 1

ID	SIC	Title	Category	Department	Status	Slot	Actions
1	24BCSF25	Bus arrival issue	Transport	Transport	Escalated	2026-04-28 at 21:03	Resolved Escalate Slot
2	24BCSA31	Wi-Fi network issue	IT Support	IT Support	Resolved	2026-05-08 at 18:12	Resolved Escalate Slot
4	24BCSG35	WIFI issue	IT Support	IT Support	Pending	Not Assigned	Resolved Escalate Slot
3	24BCSH78	Seat Issues	Library	Library	Resolved	2026-04-24 at 12:30	Resolved Escalate Slot

Colour-Coded Status

Red: Pending | **Yellow:** Escalated | **Blue:** Slot Assigned | **Green:** Resolved

Auto Escalation

Complaints escalate automatically to higher authorities after a defined delay period

Slot Assignment

Admins can schedule and assign dedicated resolution time slots for each complaint

Implementation

JDBC Connection

```
Connection con = DriverManager  
.getConnection(url, user, pass);
```

Insert Complaint

```
String sql = "INSERT INTO complaints  
(title, desc, dept) VALUES (?, ?, ?)";  
pst.executeUpdate();
```

Update Status

```
String sql = "UPDATE complaints  
SET status=? WHERE sic=?";  
pst.executeUpdate();
```
